#### **How does PEN Access work?**

**Free Access Credits** - Each DC member is eligible for 50 free access credits. These access credits expire once your DC annual membership expires. When you renew your DC membership, 50 more free access credits will be available to your account. Access credits are tracked in the Account section of your PEN Profile. Each time you successfully log in, the number of access credits decreases; 1 access credit equals one login to the PEN System.

### What constitutes a PEN Access Credit?

One login to PEN requires one access credit. The PEN user will stay logged into the PEN System until they are logged out or are timed out. For security reasons, the PEN System discontinues a session (times out) after 60 minutes of no activity. However, users may be disconnected due to network interruptions or server issues beyond the PEN System's control.

**Purchased Access Credits** - You can buy additional access credits if you need more than the 50 free access credits that come with your DC membership. These access credits can be purchased directly from your PEN Account. Purchased access credits will appear in the Account section of your PEN Profile.
